COMTECH XICOM TECHNOLOGY ANNOUNCES NEW 750W DBS-BAND PEAK-TWT AMPLIFIER FOR SATELLITE COMMUNICATIONS

March 17, 2010 SANTA CLARA, CALIF. Comtech Xicom Technology has released the XTD-750DBSP, a 750-watt antenna-mount, traveling wave tube **amplifier** (TWTAs) targeted at DTH broadcasters, the company announced March 15.

The TWTAs are available across the DBS uplink frequencies of 17.3-18.4 GHz. Comtech Xicom's new XTD model features a peak tube for linear performance, which aims to increase system capability while lowering capital and operational costs. The product also aims to enable satellite operators to mount the unit at the antenna and eliminate high transmission losses of long waveguide runs and reduce shelter requirements.

About Comtech Xicom Technology, Inc.

Xicom Technology is a subsidiary of Comtech Telecommunications Corp. (Nasdaq:CMTL), was established in 1991 and is a technology leader in the development and manufacturing of high power amplifier products for worldwide commercial and military SATCOM markets. Amplifiers include traveling wave tube amplifiers (TWTAs), solid-state power amplifiers (SSPAs) and klystron power amplifiers (KPAs) operating in a wide range of communication frequencies. Amplifier products are available for fixed location and mobile applications and are packaged in rack-mount and antenna-mount ODU configurations. More information on www.xicomtech.com

About Comtech Telecommunications

Comtech Telecommunications Corp. designs, develops, produces and markets innovative products, systems and services for advanced communications solutions. The Company believes many of its solutions play a vital role in providing or enhancing communication capabilities when terrestrial communications infrastructure is unavailable or ineffective. The Company conducts business through three complementary segments: telecommunications transmission, mobile data communications and RF microwave amplifiers. The Company sells products to a diverse customer base in the global commercial and government communications markets. The Company believes it is a market leader in the market segments that it serves.

Certain information in this press release contains statements that are forward-looking in nature and involve certain significant risks and uncertainties. Actual results could differ materially from such forward-looking information. The Company's Securities and Exchange Commission filings identify many such risks and uncertainties. Any forward-looking information in this press release is qualified in its entirety by the risks and uncertainties described in such Securities and Exchange Commission filings.
